

Call Your Legislators Representative and Senator

Use the QR Code to visit legis.delaware.gov/FindMyLegislator to find your legislator

Type your address and click “**Find My Legislator**”. It will display your State Legislators, both Senator and Representative. Their office phone numbers are listed on the back of this flyer.

Call their offices and let them know you want them to Vote NO on HB140.

Always be kind and respectful and identify yourself with your full name and address.

If you are leaving a voicemail or message with a staff member, leave your phone number and ask for a return call.

Here are some **talking points** to help prepare you.

- A six-month prognosis for death is extremely difficult to predict accurately, with many patients living far beyond the six months.
- Additionally, the definition of terminal illness under assisted suicide laws includes patients who refuse treatment and might live for many years, and diabetes and anorexia nervosa – a treatable mental health issue - have been listed as a reason someone received lethal drugs.
- The American Medical Association and the National Council on Disability are just a few of the many medical associations and advocates for those with disabilities who are against assisted suicide. Do we know better than them?
- The bill does not require a mental health evaluation of someone seeking assisted suicide, putting those with mental health issues at risk.
- People with disabilities and the elderly fear assisted suicide due to the potential for coercion and abuse.
- Government sanctioned suicide sends the dangerous message to young people that it is acceptable to kill oneself.

Join Bishop Koenig in Dover Tuesday, March 11th

8am Mass at Holy Cross (631 S. State Street, Dover, Del. 19901)
